## SUMMARY

Passionate developer skilled in creating dynamic websites and designing APIs, with a strong commitment to continuous learning in web technologies.

---

## WORK EXPERIENCE

### Software Developer

JULY.2024-PRESENT

#### MQUOTIENT

- Developed a desktop application using Electron.js on product GLYPHX, transforming a website build with NextJs into a desktop-friendly version, which significantly improved client usability by reducing loading times by debugging unwanted hooks used and developed introduced ticket section in the app to raise issue related to document and app.
  - Diagnosed and resolved frontend issues like CORS errors by implementing a proxy server for resource management and static files in the Electron app and used Version Control(Git) to track app changes.
  - Enhanced Application responsiveness by optimizing React hooks to prevent unnecessary loading and creating efficient functions for API endpoint fetching and used ngrok to host development one to check the function of the Product.
  - Build Services Section for the company site and made it responsive to adapte to all screens
- 

## PROJECTS

### CMS:

- Built a Contact Management System for project managers to track employee details efficiently. Designed with clean APIs for easy data management and a seamless user experience."
- SkillSet: Js, React Js , Node Js , Express Js, MongoDB

### SHOPIT:

- Developed 'ShopIt,' an e-commerce app allowing users to buy and sell products. Implemented cart and search features with integrated logic for both frontend and backend.
- SkillSet: Js, Java , ReactJS , Spring Boot

### Connect+:

- Built a scalable cloud-based chat app for user communication, leveraging SDK tools from Firebase
  - SkillSet: Js, ReacJs , FireBase , CloudStore
- 

## EDUCATION

2020-2024

B.Tech. Computer Science Engineering

SRM UNIVERSITY - 8.64 CGPA

---

## SKILLS:

Java, JavaScript , Python , Html , Css , ReactJs , Node Js , Express JS, Spring Boot ,SQL

---

## CERTIFICATIONS:

MicroSoft-Azure (AZ-900)-Cloud Computing

FullStack Development - Skolar

Python -Udemy

---

## ACHIEVEMENTS:

Top 4.4% coder for 2024 in LeetCode.

300+ problems solved in LeetCode
